

# High Density Home Orchard Management

February 13, 2008, 9 a.m. – 1 p.m.

Do you love the idea of growing your own, fresh, organic fruit, but think you don't have the space?

We have a solution. High density home orchard management allows urban gardeners to quadruple the amount of fruit they can grow without buying a single square foot of land.

These techniques allow homeowners with even the smallest urban lots to grow beautiful and bountiful gardens with more variety and increased production.

Maintenance is made easier by simple changes in the way home orchard management is approached.

Fruits covered include stone and pome fruits as well as tropical fruits and small bush fruits and berries.

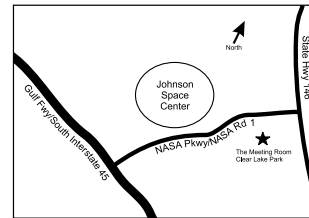

Practical and decorative training techniques will be explained.

Planting and first pruning are demonstrated live.

CD of orchard patterns and inspirational photos is included.

**Workshop location:  
The Meeting Room at Clear Lake Park  
5001 NASA Rd 1  
Seabrook, TX 77586**

\$15 per person preregistration recommended; class size is limited.

Questions? Call 281.991.8437, or visit our Web site at <http://hcmgap2.tamu.edu>.

Harris County Master Gardeners is a program of Texas Cooperative Extension. Educational programs of Extension are open to all people without regard to race, color, sex, disability, religion, age, or national origin.
